SAMANDAR KHAYITBOYEV

BUSINESS ANALYST

I am a young professional working in the field of data analytics. My main goal is to effectively use data to analyze business processes, express them through clear visualizations, and support decision-making processes. I specialize in analyzing large amounts of data and drawing useful conclusions using Power BI, Excel, and modern analytical tools. As a person, I strive for constant growth, quickly master new knowledge, and can work effectively both in a team and independently.

ABOUTE

I was born on 01.09.2004 in Fergana region. I am a highly motivated and goal-oriented individual with strong interests in business and psychology. I am passionate about continuous growth and self-improvement, always looking for opportunities to expand my knowledge and skills. I focus on sports and personal development, learn new concepts in business, and read books that broaden my horizons and strengthen my analytical thinking.
